Hello Hu,
I was so pleased to be able to attend your workshop yesterday.
You have an amazing command of this subject matter – clearly.
(I remain intimidated but it was such a good overview. You spoke very kindly and well to the novice
– for which I am grateful!)

Thank you very much for all the work that went into that presentation – it was an impressive session.

Hi,

I am the instructor of the “ISRC Workshop: Intro to R.” Thank you for signing it up. Just a reminder that the workshop will start at 9:30 am tomorrow (8/13) in Commons room (302), Schaeffer Hall, and, because there are a lot things to show, we will have to start on time. I will show all the codes and outputs in the slides, and share them with you after the workshop. So, you don’t have to bring a laptop.

Look forward to seeing you!
